THE BTTCO OVERSEAS

A Govt. of India Recognized *Star Export House*

from local roots to global routes

Material Safety Data Sheet
Cocamide Diethanolamide (Coco Diethanolamide)

Section 1-Product Identification & Company Information

Product Name : Cocamide Diethanolamide (Coco Diethanolamide)
Synonyms : Coco Diethanolamide, Cocamide DEA, Coco DEA, Coconut Fatty Acid Diethanolamide, Coconut Oil Diethanolamide, CDEA
CAS No : 68155-07-7

Company Name & Address : The BTTCO Overseas
6, Ashirvad Complex, Nr. Sardar Patel Seva Samaj Hall,
Navrangpura, Ahmedabad 380009, India

Telephone Number : +91-94265 96891
Contact Person : Mr. Dinaish Lunkad

Section 2- Composition/Information on Ingredients

Substance type : Surfactant & Emulsifier

Component	CAS No	Weight %
Fatty Acid	8001-38-8	66%
Diethanolamine	111-42-2	34%

Section 3- Hazards Identification

Not classified as dangerous according to EEC Dangerous Substance Directive and Dangerous Preparation Directive.

Section 4- First Aid Measures

Eye contact : Immediately rinse with water. If symptoms persist, seek medical advice.
Skin contact : Wash the skin with soap and water.
Inhalation : Not likely to occur.
Ingestion : Only when conscious, rinse mouth, give plenty of water to Drink (approx.500 ml). Contact physician if larger quantity has been swallowed.

Section 5- Fire Fighting Measures

Extinguishing media : Water spray, Fog or mist, Foam, Powder, Carbon dioxide.

Fire Hazards : Non-flammable. If involved in a fire it will support combustion. Do not breath fumes.

Hazardous combustion products : No typical hazardous decomposition products known.

Section 6- Accidental Release Measures

Personal precautions : For personal protection see Section 8

Environmental precautions : Prevent discharge of larger quantities to drain or water courses.

Methods cleaning up : Larger spill: Contain spill with inert material. Absorb in vermiculite, dry sand or earth. Place in container for disposal according to local regulations. Small quantities may be flushed to drains with plenty of water.

Section 7- Handling and Storage

Handling : The usual precautions for handling chemicals should be observed.

Storage : No specific storage precautions noted.

8. Exposure Controls/Personal Protection

Exposure limits comments: No exposure limits have been established.

Engineering controls : The usual precautions for handling chemicals should be observed.

Personal protection Hand : Chemical resistant gloves required for prolonged or repeated contact. Use protective gloves made of: Neoprene or nitrile.

Section 9- Physical and Chemical Properties

Colour	: Pale Yellow
Odour	: Characteristic
Appearance	: Clear Viscous Liquid
Acid Value mgKOH/gm	: 5 max.
Free Amine	: 18.0% max
pH of 10% solution	: 9 – 10.5
Specific Gravity	: 0.99 + 0.22
Flash Point	: > 150°C
Solubility in Water	: Dispersible
Stability	: Product is stable under normal conditions

Section 10- Stability and Reactivity

Stability : Normally stable.

Hazardous decomposition products : Carbon Mono Oxide & Carbon Di Oxide on burning

Incompatibility (Keep away from) : Strong Oxidizers such as Hydrogen Peroxide, Bromine, Chromic Acid

Section 11- Toxicological Information

Toxicological data Health effects

Respiratory	**:** Not likely to occur.
Skin	**:** Prolonged or frequent contact may give transient redness and skin cracking.
Eyes	**:** Slightly irritating.
Ingestion	**:** Low acute toxicity. LD 50 on RAT

Section 12- Ecological Information

No additional information available.

Section 13- Disposal Considerations

Waste Disposal : Incineration is recommended. Dispose of in accordance with local authority requirements.

Section 14- Transport Information

DOT/IATA/IMDG/IMO

Not dangerous goods, according to international transport regulations

Section 15- Regulatory Information

Substance name : Fatty acid Amide (Coco Diethanolamide)
Symbols : Non-Hazardous
Other information : Not classified as dangerous

Section 16- Other Information

Disclaimer:
